## METHOD STATEMENT

## Determinand:

4-Tert-Butylphenol

## Matrix:

Surface Waters, Untreated Sewage and Treated Sewage Effluent

## Principle of Method:

An automated dispersive liquid/liquid microextraction procedure (DLLME) is used to extract the compounds of interest from an aqueous matrix. The dispersive solvent is isopropanol and the extraction solvent a mixture of dichloromethane and $n$-pentane ( $80: 20$ ). The extract is then analysed using MRM transitions on an Agilent 7010 GC MS Triple Quad (GCMSMS). A sandwich injection technique is employed to co-inject an analyte protectant solution (3-Ethoxy-1,2-propanediol) together with the sample extract onto the GCMSMS, this improves the chromatographic performance of the target analyte

## Sampling and Sample Preparation:

Water samples are to be supplied in 40 ml amber screw top glass vials.
They must be taken without any significant headspace - that is filled at least up to the shoulder of the vial - and delivered to the laboratory. Where significant headspace is evident a senior analyst must be informed.

## Interferences

Any co-extracted material with a corresponding GC retention time and similar mass spectrum will interfere.

## Performance of Method:

LOD, Precision and Bias

|  | Low Standard |  | High Standard |  |
| :--- | :---: | :---: | :---: | :---: |
| Compound | Bias (\%) | RSD (\%) | Bias (\%) | RSD (\%) |
| 4-tert-Butylphenol | -4.18 | 6.66 | 0.26 | 5.04 |

Matrix Spike Recoveries

|  | Final Effluent <br> $(100 \mathrm{ng} / \mathrm{L})$ |  | Final Effluent <br> $(800 \mathrm{ng} / \mathrm{L})$ |  | Surface Water <br> $(800 \mathrm{ng} / \mathrm{L})$ |  | Crude Sewage <br> $(8000 \mathrm{ng} / \mathrm{L})$ |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Compound | Rec. (\%) | RSD (\%) | Rec. (\%) | RSD (\%) | Rec. (\%) | RSD (\%) | Rec. (\%) | RSD (\%) |
| 4-tert-Butylphenol | 89.8 | 7.17 | 96.7 | 5.69 | 96.7 | 4.46 | 98.2 | 3.95 |

Limits of Detection

|  | Final Effluent (ng/L) |  | Surface Water (ng/L) |  | Crude Sewage (ng/L) |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |
| Compound | LOD | MRL | LOD | MRL | LOD | MRL |
| 4-tert-Butylphenol | 6.0 | 10 | 5.7 | 10 | 55.8 | 100 |

## Uncertainty of Measurement:

| Compound | Uncertainty of Measurement |
| :--- | :---: |
| 4-tert-Butylphenol | $24.57 \%$ |
