Dear Sir/Madam

Re: Ref:

I hereby declare that the goods covered by the above mentioned consignment reference number are being imported to undergo analysis to determine their composition, quality or other technical characteristics for the purposes of information, industrial, or commercial research.

The goods can only be used as analytical samples and are of no commercial value, and are therefore eligible for relief of duty and VAT on import. Please use CPC: 4000C33 for imports outside the EU.

I further declare that we will abide by all the conditions of Notice 374 and that if any of the said goods are not used up or destroyed in the course of the tests, they will be disposed of only as allowed by the National Imports Reliefs Unit or Revenue & Customs and in accordance with our DEFRA Licence PHL.

We anticipate the proposed testing will be completed on these samples within 12 months.

Yours faithfully

On behalf of ALS Environmental
