

Designing Out HAIs

(Healthcare Acquired Infections)

Including Legionella, Pseudomonas, Mycobacteria etc.

Wednesday 15th November 2017

SCI, London, SW1X 8PS

1 Day
Event

Trade Stands
Available

Aim: One day conference aimed at understanding the needs of good design in healthcare buildings water systems and water-using products helping to reduce the current numbers of Healthcare Acquired Infections (HAIs).

Background: Currently thousands of people die each year in the UK from HAIs. Many of these deaths might have been avoided by a better understanding of some of the learnings from previous bad practices and the new guidance standards that are now available.

Who should attend: Anyone with a direct or indirect interest in designing, installing, maintaining or looking after healthcare premises' water systems and the products connected to them. Including architects, contractors, plumbers, manufacturers, hospital engineers, estates staff, infection control staff, microbiologists and any other members of water-safety groups.

Programme:

09.00 - Registration and coffee, plus exhibition

09.30 - Welcome and Introduction (including information on the design competition)

09.45 - Designing Out Not Designing In

Phil Ashcroft (Department of Health) & Mark Gapper (NHS Shared Services Partnership Wales)

10.30 - Horrors That Really Do Exist!

Dr Paul McDermott (Senior Water Consultant)

11.00 - Coffee plus exhibition

11.30 - Research Leading to Better Design

Dr Ginny Moore (Public Health England)

12.00 - Case study – Problem Plus Solution

Alyson Prince (Infection Control UCLH)

12.30 - Speakers – questions and answers

13.00 - Lunch plus exhibition and design competition finalists unveiling

14.15 - Design Competition Prize Giving Ceremony

14.30 - Water – Shaping a new Hospital

Christopher Shaw (Architects for Health)

15.00 - The Future!

Dr Mike Weinbren

15.30 - Speakers - questions and answers

16.00 - Close and coffee
